Report of the Director: From the Statistical Report, Mr. Archer noted that compared to 2019, 2021 visitor counts are down due to there not being any in-person programming and also that reference questions are down quite drastically. On the other hand, he reported that eLibrary numbers are 15% higher than 2019 with eBooks leading the pack.

He then announced that Children’s Assistant Manager Heather Beverley has been awarded the Illinois Library Association’s Davis Cup, which is presented annually to “a person who has made an outstanding contribution in library service to young people.” The award not only looks at the programs and activities at the recipient’s library, but also their service to the profession in general through participation in professional organizations and within the larger library community. He went on to say that one of Ms. Beverley’s most significant contributions to the profession is in the area of STEM (Science, Technology, Engineering and Mathematics) programming for children which included a series of STEM programs for grade school children and a blog. He noted that she has been selected and/or invited to present workshops and webinars for PLA, ALA, and other organizations on how other children’s librarians could launch STEM programming in their own libraries. The Davis Award will be presented to her at an awards ceremony during the 2021 Illinois Library Association Annual Conference in October.

Mr. Archer then provided a COVID operations update and reported on online scheduling of Library amenities such as notary service, study rooms and digital studios.
One trustee asked about the bookmobile operations. Mr. Archer replied that the bookmobile is currently
doing stops at daycare centers and the Vernon Hills Farmers Market. He reported that two bookmobile
staff members were lost to retirement and that the Library is in the process of hiring a driver. Once that
