INDEPENDENT AUDITORS' REPORT

December 1, 2023

Members of the Board of Trustees Cook Memorial Public Library District Libertyville, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cook Memorial Public Library District (the District) of Libertyville, Illinois, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Cook Memorial Public Library District of Libertyville, Illinois, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Cook Memorial Public Library District Libertyville, Illinois December 1, 2023

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and GASB-required pension, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Cook Memorial Public Library District Libertyville, Illinois December 1, 2023

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cook Memorial Public Library District of Libertyville, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Lauterbach & Amen. LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis June 30, 2023

Our discussion and analysis of the Cook Memorial Public Library District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2023. Please read it in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

- The District's net position increased from a balance of \$17,664,962 to \$17,777,590, an increase of \$112,628 or 0.6 percent.
- During the year, government-wide revenues totaled \$10,503,331, while government-wide expenses totaled \$10,390,703, resulting in an increase to net position of \$112,628.
- Total fund balances for the governmental funds were \$7,775,363 at June 30, 2023 compared to \$7,947,952 in the prior year, a decrease of \$172,589 or 2.2 percent.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances.

For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operation in more detail than the government-wide statements by providing information about the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the District that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the District include the cultural function.

Management's Discussion and Analysis June 30, 2023

USING THIS ANNUAL REPORT - Continued

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District only maintains governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, IMRF and Social Security Fund, and Special Reserve Fund, all of which are considered major funds. The Working Cash Fund is presented as a nonmajor fund.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide benefits to its employees.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information.

Management's Discussion and Analysis June 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$17,777,590.

	Net Position		
		6/30/2023	6/30/2022
Current Assets	\$	17,958,889	17,950,685
Capital Assets		19,582,235	19,520,112
Other Assets		_	2,163,579
Total Assets		37,541,124	39,634,376
Deferred Outflows		2,861,933	695,309
Total Assets/Deferred Outflows		40,403,057	40,329,685
Long-Term Liabilities		11,542,558	8,630,597
Other Liabilities		1,074,973	1,199,607
Total Liabilities		12,617,531	9,830,204
Deferred Inflows		10,007,936	12,834,519
Total Liabilities/Deferred Inflows		22,625,467	22,664,723
Net Position			
Net Investment in Capital Assets		11,121,235	10,331,112
Restricted		291,721	201,334
Unrestricted		6,364,634	7,132,516
Total Net Position		17,777,590	17,664,962

A large portion of the District's net position (\$11,121,235 or 62.6 percent) reflects its investment in capital assets (for example, land, buildings, equipment and furniture), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

An additional portion, \$291,721 or 1.6 percent of the District's net position, represents resources that are subject to external restrictions on how they may be used (\$27,973 restricted for Donor and \$263,748 restricted for IMRF). The remaining \$6,364,634, or 35.8 percent, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis June 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

	Change in Net Position		
	6/30/2023		6/30/2022
Revenues			
Program Revenues			
Charges for Services	\$	39,520	27,474
Operating Grants/Contributions		113,730	97,682
General Revenues			
Property Taxes		9,757,220	9,537,551
Replacement Taxes		285,537	252,621
Interest and Miscellaneous		307,324	25,118
Total Revenues		10,503,331	9,940,446
Expenses			
Culture and Recreation		10,390,703	8,039,160
Change in Net Position		112,628	1,901,286
Net Position - Beginning		17,664,962	15,763,676
Net Position - Ending		17,777,590	17,664,962

Net position of the District's governmental activities increased from a balance of \$17,664,962 to \$17,777,590.

Revenues of \$10,503,331 exceeded expenses of \$10,390,703, resulting in the increase to net position in the current year of \$112,628.

Governmental Activities

In the current year, governmental net position increased \$112,628 or 0.6 percent. Total revenues of \$10,503,331 included an increase of \$562,885 over previous year revenues of \$9,940,446.

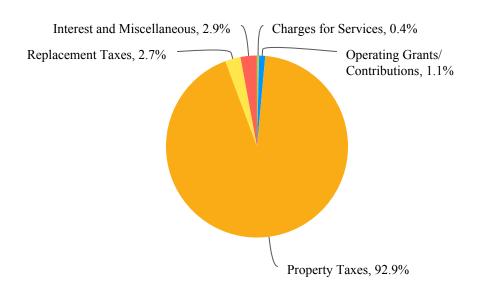

Management's Discussion and Analysis June 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Governmental Activities - Continued

The following table graphically depicts the major revenue sources of the District. It depicts very clearly the reliance of property taxes to fund governmental activities.

Revenues by Source - Governmental Activities June 30, 2023

The 'Expenses and Program Revenues' Table identifies those governmental functions where program expenses greatly exceed revenues. Program expenses, then signify the District's reliance on general revenues such as property taxes to fund operations.

Management's Discussion and Analysis June 30, 2023

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$7,775,363 which is a decrease of 2.2 percent from last year's ending fund balance of \$7,947,952.

The General Fund reported an increase of \$375,790. The increase is primarily due to the District's revenues exceeding expenditures. The IMRF and Social Security Fund reported an increase of \$45,388, due primarily to less spending of expenditures compared to the taxes received. The Special Reserve Fund had a decrease of \$593,767, due primarily to an increase in capital projects expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, no supplemental amendments were made to the budget for the General Fund.

The General Fund actual revenues were higher than budgeted revenues. Actual revenues for the current year were \$9,594,253, compared to budgeted revenues of \$9,318,000. This resulted primarily from replacement taxes and fines and fee receipts being \$35,537 and \$29,782 higher than the budgeted amounts of \$250,000 and \$3,000, respectively.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$9,218,463, while budgeted expenditures totaled \$10,774,000. This was due primarily to substantial savings realized versus the budgeted expenditures in the areas of personnel services, maintenance, and community relation expenditures, along with smaller savings on other budget line items.

Management's Discussion and Analysis June 30, 2023

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2023 was \$19,582,235 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, building, and improvements, furniture and equipment, vehicles, automated library system, and library materials.

	Capital Assets - Net of Depreciation		
	6/30/2023		6/30/2022
Land	\$	1,008,500	1,008,500
Construction in Progress		_	107,791
Building and Improvements		15,871,275	15,754,648
Furniture and Equipment		531,491	688,570
Vehicles		3,691	9,490
Automated Library System		387,820	133,167
Library Materials		1,779,458	1,817,946
Total		19,582,235	19,520,112

This year's additions to capital assets included the below:

Building and Improvements	\$ 552,906
Automated Library System	330,292
Library Materials	 499,757
	1,382,955

Additional information on the District's capital assets can be found in Note 3 of this report.

Debt Administration

At year-end, the District had total outstanding debt of \$8,461,000 as compared to \$9,189,000 the previous year. During the current fiscal year, the District did not issue any new long-term debt, but retired \$728,000 of existing long-term debt.

State statutes limit the amount of debt a non-home rule governmental entity may issue to 2.875 percent of its total assessed valuation. The current debt limit for the District is \$99,727,149.

Additional information on the District's long-term debt can be found in Note 3 of this report.

Management's Discussion and Analysis June 30, 2023

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's elected and appointed officials considered many factors when setting the fiscal-year 2024 budget, including the economy, tax rates, and anticipated costs for services. The District is faced with a similar economic environment as many of the other libraries are faced with.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Library Director, Cook Memorial Public Library District, 413 N. Milwaukee Avenue, Libertyville, Illinois 60048

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

Government-Wide Financial Statements

Fund Financial Statements

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

For the Fiscal Year Ended June 30, 2023

Net Change in Fund Balances - Total Governmental Funds	\$ (172,589)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the	
Statement of Activities the cost of those assets is allocated over their estimated	
useful lives and reported as depreciation expense.	
Capital Outlays	1,382,955
Depreciation Expense	(1,320,832)
Disposals - Cost	(622,394)
Disposals - Accumulated Depreciation	622,394
The net effect of deferred outflows (inflows) of resources related	
to the pensions not reported in the funds.	
Change in Deferred Items - IMRF	5,304,513
The issuance of long-term debt provides current financial resources to	
governmental funds, while the repayment of the principal on long-term	
debt consumes the current financial resources of the governmental funds.	
Change to Compensated Absences Payable	16,851
Change to Net Pension Liability/(Asset) - IMRF	(5,833,021)
Retirement of Debt	728,000
Changes to accrued interest on long-term debt in the Statement of Activities	
does not require the used of current financial resources and, therefore, are not	
reported as expenditures in the governmental Funds	 6,751
Changes in Net Position of Governmental Activities	 112,628

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Cook Memorial Public Library District (the District) is an Illinois local government. The District maintains two facilities, the Aspen Drive Library, Vernon Hills, and the Cook Park Library, Libertyville and operates a traveling bookmobile. The District's mission is to provide and promote open access to information, ideas, and creative expression and to encourage life-long learning and personal growth.

The government-wide financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The more significant accounting policies are described below.

REPORTING ENTITY

The District is a body and politic established under Illinois Complied Statues governed by an elected Board of Trustees. These financial statements present the District's reporting entity as required by accounting principles generally accepted in the United States of America. The District is considered to be a primary government since its Board of Trustees is separately elected and the District is fiscally independent.

The District has developed criteria to determine whether organizations with separate governing boards meet the criteria of a component unit. The criteria include whether the potential component unit is legally separate, and whether the District is financially accountable for the organization. There is no entity included as a component unit, and the District is not considered to be a component unit of any other government unit.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). The District's culture and recreation services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. These functions are supported by general government revenues (property taxes, certain intergovernmental revenues, and charges for services, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Government-Wide Statements - Continued

The net costs (by function) are normally covered by general revenue (property tax, intergovernmental revenues, interest income, etc.).

The District does not allocate indirect costs.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for a specified purpose. The District maintains one major special revenue fund, the IMRF and Social Security Fund.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Special Reserve Fund is a major fund.

Permanent Funds are used to report resources that are legally restricted to the extent that only earning, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. The District maintains one nonmajor permanent fund.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below.

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Measurement Focus - Continued

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end.

The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due, if applicable.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, utility taxes, hotel/motel taxes, fines, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances include property taxes.

Prepaids

Prepaids are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Building and Improvements	40 Years
Furniture and Equipment	5 - 20 Years
Vehicles	8 Years
Automated Library System	5 Years
Library Materials	7 Years

Compensated Absences

The District provides paid vacation for all full-time employees based on their job classification or the number of years of service. The District's policy allows employees to accumulate unused vacation days up to thirty-five days. These days are then paid to the employee based on their salary upon retirement or termination. All vacation pay is accrued when incurred in the government-wide financial statements. In addition, all full-time employees accrue sick leave at the rate of one day per month to a maximum of 240 working days. Since these accumulated sick days are not payable when the employee leaves employment there is no sick pay accrued at year end.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities on the Statement of Net Position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

Notes to the Financial Statements June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

The District's budget is prepared on the modified accrual basis of accounting. As prescribed by the statutes, the District in its budgeting process includes as a resource (amount available for current expenditures) a portion of the fund balance what has been accumulated in prior years. The budgets must be approved within 90 days after the beginning of the fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Board of Trustees adopts a Budget and Appropriation Ordinance
- 2. Notice is published in the paper that the tentative Annual Budget and Appropriation Ordinance are available for public inspection.
- 3. Budget hearings are conducted, 30 days after publication.
- 4. The budget is legally enacted through passage of an ordinance by the Board of Trustees.
- 5. The budget may be amended by the Board of Trustees.
- 6. Budgets are adopted on a basis consistent with the prior year.
- 7. A certified copy of the Annual Budget and Appropriation Ordinance must be filed with the County Clerk within 30 days of adoption.

During the year ended June 30, 2023, there were no amendments to the operating budget. The original and final budget amounts presented represent the original operating budget and final operating budget. The budget was approved on September 20, 2022 for all funds, except the Special Reserve Fund and the Working Cash Fund.

Notes to the Financial Statements June 30, 2023

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments."

Permitted Deposits and Investments - Illinois Statutes authorizes the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

Interest Rate Risk, Credit Risk, Custodial Credit Risk, and Concentration Risk

Deposits. At year-end, the carrying amount of the District's deposits totaled \$9,231,204 and the bank balances totaled \$9,306,929.

Investments. The District has the following investment fair values and maturities:

		Investment Maturities (in Years)				
Investment Type	Fair Value	Less Than 1	1 to 5	6 to 10	More Than 10	
Ma ma a sita h	100 11 6	100 116				
U.S. Treasury Securities \$	488,416	488,416			_	
Corporate Bonds	2,820,000	2,330,000	490,000	_	_	
Illinois Funds	167,875	167,875			<u> </u>	
<u></u>	3,476,291	2,986,291	490,000			

The District has the following recurring fair value measurements as of year-end:

- U.S. Treasury Securities of \$488,416 are valued using quoted market prices (Level 1 inputs)
- Corporate Bonds of \$2,820,000 are valued using a matrix pricing model (Level 2 inputs)
- Illinois Funds of \$167,875 are valued using the Net Asset Value (NAV)

Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. It is the policy of the District to invest its funds in a manner which will provide the highest investment return and ensure the safety of principal while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy in order of priority are safety, liquidity and return on investment. The District's investment policy does not limit the District's investment portfolio to specific maturities, although it does state that the Treasurer shall establish a maximum maturity limit.

Notes to the Financial Statements June 30, 2023

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Interest Rate Risk, Credit Risk, Custodial Credit Risk, and Concentration Risk - Continued

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy does not address credit risk. At year-end, the District's investments in the Illinois Funds were rated AAA by Fitch. The corporate bonds ratings are not available.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy states that balances in all deposit accounts will not exceed the insured amount. At year-end, \$144,781 of the bank balance of deposits was not covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy states that investments will only be made in securities guaranteed by the U.S. government or insured accounts.

Concentration Risk. This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not address concentration risk. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio.

PROPERTY TAXES

Property taxes for 2022 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically to the District. The allowance for uncollectible taxes has been stated at 1% of the tax levy, to reflect actual collection experience.

Notes to the Financial Statements June 30, 2023

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The District's policy manual states that the General Fund should maintain a minimum fund balance equal to 70% to 75% of budgeted operating expenditures.

Notes to the Financial Statements June 30, 2023

NOTE 4 - OTHER INFORMATION

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the District's employees. The District has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. The District currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

Notes to the Financial Statements June 30, 2023

NOTE 4 - OTHER INFORMATION - Continued

CONTINGENT LIABILITIES

Litigation

The District is not a defendant in any lawsuits.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Descriptions

Plan Administration. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

Notes to the Financial Statements June 30, 2023

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Benefits Provided - Continued. IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2022, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	98
Inactive Plan Members Entitled to but not yet Receiving Benefits	45
Active Plan Members	90
Total	233

Net Pension Liability. The District's net pension liability was measured as of December 31, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to the Financial Statements June 30, 2023

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended June 30, 2023, the District's contribution was 9.43% of covered payroll.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2022, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age
	Normal

Asset Valuation Method Fair Value

Actuarial Assumptions

Inflation

Interest Rate 7.25%

Salary Increases 2.85% to 13.75%

2.25%

Cost of Living Adjustments 2.75%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Notes to the Financial Statements June 30, 2023

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued.

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	25.50%	4.90%
Domestic Equities	35.50%	6.50%
International Equities	18.00%	7.60%
Real Estate	10.50%	6.20%
Blended	9.50%	6.25% - 9.90%
Cash and Cash Equivalents	1.00%	4.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current			
	19	% Decrease (6.25%)	Discount Rate (7.25%)	1% Increase (8.25%)	
Net Pension Liability	\$	6,505,245	3,669,442	1,350,227

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2023, the District recognized pension expense of \$944,057. At June 30, 2023, the District reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred	
	Outflows of	Inflows of	
	Resources	Resources	Totals
Difference Between Expected and Actual Experience	\$ 863,711	(9,031)	854,680
Change in Assumptions		(8,395)	(8,395)
Net Difference Between Projected and Actual			
Earnings on Pension Plan Investments	1,826,003	_	1,826,003
Total Expense to be Recognized in Future Periods	2,689,714	(17,426)	2,672,288
Pension Contributions Made Subsequent			
to the Measurement Date	172,219		172,219
Total Deferred Amounts Related to IMRF	2,861,933	(17,426)	2,844,507

\$172,219 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2024. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred
Fiscal	Outflows
Year	of Resources
2024	\$ 411,607
2025	615,846
2026	602,637
2027	1,042,198
2028	_

Total	2,672,288

Notes to the Financial Statements June 30, 2023

NOTE 4 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS

The District has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, there is minimal participation. As the District provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Therefore, the District has not recorded a liability as of June 30, 2023.

REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

 Budgetary Comparison Schedule - Major Governmental Fund General Fund

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUND

The Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

IMRF and Social Security Fund

The IMRF and Social Security Fund is used to account for the revenues derived from specific annual property tax levies to fund payments to the state controlled pension fund and federally administered social security.

CAPITAL PROJECTS FUND

Capital Projects Funds are created to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary Funds.

Special Reserve Fund

The Special Reserve Fund is used to account for financial resources used for the acquisition or construction of major capital assets.

PERMANENT FUND

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Working Cash Fund

The Working Cash Fund is used to account for payments for general government expenditures if tax revenue is temporarily unavailable. Upon receipt of tax revenues, the General Fund must repay this permanent fund.
